

UJJWAL RAJ

📍 Chennai, Tamil Nadu | 📞 +91 6203038580 | ✉️ ujjwal0904@gmail.com
🌐 [LinkedIn](#) | 🐙 [Github](#)

Overview

A highly motivated B.Tech student in Electronics and Communication Engineering with a specialization in Data Science, possessing strong analytical and programming skills. Experience in Exploratory Data Analysis (EDA), SQL, data preprocessing, and ETL processes, with a conceptual understanding of Azure Data Pipelines, Data Warehousing, Azure Analytics and AI Services. Proficient in AI/ML with a solid foundation in data-driven analytics, focused on delivering practical solutions with learning and improvement.

Education

B.Tech in ECE with specialization in Data Science

SRM Institute of Science and Technology, Kattankulathur

CGPA: 9.49/10

Chennai, Tamil Nadu

June 2023 – May 2027

Relevant Coursework: Python Programming, Artificial Intelligence, Python for Data Science, Deep Learning for Data Analytics, DSA, Data Science

Class XII

GD Goenka Public School

Percentage: 77%

Patna, Bihar

April 2021 - May 2022

Class X

GD Goenka Public School

Percentage: 88.6%

Patna, Bihar

April 2019 - May 2020

Experience

Intern

Vodafone Intelligent Solutions (VOIS) · AICTE

Sep 2025 – Oct 2025

Remote

- Delivered end-to-end data analytics projects under VOIS–AICTE, performing data cleaning, pre-processing, and exploratory analysis to uncover trends and correlations in large datasets.
- Applied LLM-driven analysis with prompt engineering to query datasets and generate actionable insights from complex structured and unstructured data.

Skills

Programming Languages Python, SQL

Libraries & Frameworks NumPy, Pandas, Matplotlib, Seaborn, TensorFlow/Keras, Scikit-learn, LangChain, Streamlit, ReactJS(Basic)

Data Science & AI Supervised & Unsupervised Learning, Model Evaluation, Cross-Validation, Classification, Regression, NLP, CNN

Databases MySQL

Cloud Technologies Microsoft Azure

Developer Tools GitHub Copilot, VS Code, Jupyter Notebook, CodeLite, Colab, Git/GitHub

Soft Skills Communication, Teamwork, Analytical Thinking, Collaboration, Quick Learner

Projects

Study Planner Agent

Jun 2026 [🔗](#)

[Python](#) · [LangChain](#) · [Gemini API](#) · [HTML/CSS](#) · [Flask](#)

- Built an AI-powered web application that generates personalized study plans using the Gemini API to provide intelligent learning recommendations based on user goals and available study time.

EmotionLens

Feb 2026 

[Python](#) · [Streamlit](#) · [CNN](#) · [TensorFlow](#) · [PyPDF](#)

- Developed a real-time text emotion recognition system using a CNN trained on ~**58,000** samples, detecting 28 emotional states from user-generated text with **83%** accuracy.
- Built an end-to-end NLP pipeline with preprocessing and model inference; visualized emotion distribution and confidence metrics via an interactive dashboard.

AskMyPDF

Dec 2025 

[Python](#) · [Streamlit](#) · [LangChain](#) · [OpenAI API](#) · [FAISS](#)

- Developed an AI-driven web application enabling semantic search over multiple PDFs using LangChain, with integration of OpenAI and Hugging Face models and a session-based interactive interface.

Netflix Data Analysis

Oct 2025 

[Python](#) · [NumPy](#) · [Pandas](#) · [Seaborn](#) · [Matplotlib](#) · [LLM](#)

- Conducted EDA on a dataset of ~**7,800** Netflix titles (11 features) to analyze content distribution, genre patterns, and temporal trends.
- Applied LLM-assisted workflows for automated analysis, improving insight generation and supporting data-driven evaluation of global content strategy.

Airbnb Hotel Booking Analysis

Sep 2025 

[Python](#) · [NumPy](#) · [Pandas](#) · [Seaborn](#) · [Matplotlib](#) · [Plotly](#)

- Conducted EDA on a large-scale Airbnb dataset of **100,000+** listings to analyze booking trends and host performance.
- Utilized data cleaning and preprocessing techniques, and developed visualizations to identify patterns in pricing, availability, and review metrics across locations.

Bank Loan Approval

Jul 2025 

[Python](#) · [Scikit-Learn](#) · [Pandas](#) · [Seaborn](#) · [Matplotlib](#) · [Random Forest](#) · [Logistic Regression](#)

- Developed a Loan Approval Prediction System using Logistic Regression and Random Forest to classify applications based on financial and demographic features.
- Performed EDA with visualizations to identify key factors influencing loan approvals, achieving **70%** accuracy with Logistic Regression and optimized by **28%** using Random Forest.

Certifications

- | | |
|---|---------------------------------|
| • AI Practitioner – Amazon Web Services | Mar 2026 (Link) |
| • Azure AI Engineer Associate (AI-102) – Microsoft | Aug 2025 (Link) |
| • IBM Machine Learning with Python – Coursera | Sep 2025 (Link) |
| • Azure AI Fundamentals (AI-900) – Microsoft | Jun 2025 (Link) |
| • Data Analytics Essentials – Cisco | Apr 2025 (Link) |
| • Complete Data Structures and Algorithms – Udemy | Jan 2025 (Link) |
| • Azure Data Engineer Associate (DP-203) – Microsoft | Sep 2024 (Link) |
| • Azure Data Fundamentals (DP-900) – Microsoft | Jul 2024 (Link) |
| • SQL – HackerRank | Aug 2024 (Link) |

Conferences & Workshops

- | | |
|--|---------------------------------|
| • Code to Cloud: Building Data Solutions – Aaruush · SRMIST | Jul 2025 (Link) |
| • Python Data Dynamo – Aaruush · SRMIST | Sep 2023 (Link) |

Achievements

- | | |
|---|---------------------------------|
| • Performance Based Scholarship – Dept of ECE | Feb 2025 (Link) |
| • Certificate of Topper Appreciation – Dept of ECE | Feb 2026 (Link) |
